

SPEED. RELIABILITY.

SPEED AND RELIABILITY ARE BENEFITS THAT YOUR BUSINESS GETS FROM THE FIBER NETWORK THAT WAS BUILT BY MEDINA COUNTY, FOR MEDINA COUNTY. Through a unique collaboration of the public and private sectors, the Medina County Fiber Network is a business enabler that ensures businesses in the County remain competitive and continue to grow.

COMPETITION

When it comes to telecommunication services, many of us have had to face there is little to no competition in the marketplace. We don't like it, but we can't do much about it. Until now.

Service providers would have to build their own infrastructure if they want to compete with legacy companies already in a given area. The Medina County Fiber Network provides the infrastructure so any service provider can work with us.

Instead of being trapped by a particular carrier, you have the freedom to explore multiple options and have them compete over YOU. And because you own the "last mile", you are in control of who comes into your building.

Isn't that the way it is suppose to be?

To learn more, contact us today. Because when it comes to telecommunications services for your business, you should have a choice.

EXPANDING HIGH-SPEED BROADBAND INTO MEDINA COUNTY

The Medina County Fiber Network (MCFN) provides businesses and institutions with affordable, robust broadband services for local, regional and global connectivity.
