

SPEED. RELIABILITY.

SPEED AND RELIABILITY ARE BENEFITS THAT YOUR BUSINESS GETS FROM THE FIBER NETWORK THAT WAS BUILT BY MEDINA COUNTY, FOR MEDINA COUNTY. Through a unique collaboration of the public and private sectors, the Medina County Fiber Network is a business enabler that ensures businesses in the County remain competitive and continue to grow.

MULTI-TENANT BUILDINGS

You chose your building for a number of reasons - location, services, and community. Now partner with the tenants in your building to bring the Medina County Fiber Network in and allow us to advocate for you with building management. One point of contact, problems solved. **JUMP ON!**

SPEED

Nothing impacts productivity more than a slow network. With consistent upload and download speeds of 5 Mbps and up, your connection to the world keeps you moving. Signal degradation is responsible for many current network connections to become slow and even go down. Dump your slow network and stay productive. **JUMP ON!**

RELIABILITY

Unlike other services that have hardware in every tenant, the Medina County Fiber Network means only one set of enterprise-level equipment with backup. Because fiber transmits data using light, it is more reliable and more difficult to disrupt and therefore doesn't go down like other technologies. **JUMP ON!**

COSTS

Bringing fiber to multiple tenants means lower costs. Tenants have better service at a better price. **JUMP ON!**

SCALABILITY

Looking to grow or expand your business? Future-proof your technology! The Medina County Fiber Network allows you to add bandwidth and connections as you need it. **JUMP ON!**

ABOUT THE MEDINA COUNTY FIBER NETWORK

Completed in 2013, the Medina County Fiber Network (MCFN) is a project managed through the Medina County Port Authority. Funded through revenue development bonds, the MCFN was designed to help companies grow through access to the best technology available. With an eye to the future, the MCFN allows tomorrow's needs to be met today.

EXPANDING HIGH-SPEED BROADBAND INTO MEDINA COUNTY

The Medina County Fiber Network (MCFN) provides businesses and institutions with affordable, robust broadband services for local, regional and global connectivity.
